Front-End Development Intern , Nami

My Project In Nami : joocare

Description:

- Developed JooCare, a full-scale dynamic job board platform that seamlessly connects employers with job seekers.
- Built an interactive Company Dashboard for job creation, management, and applicant tracking.
- Designed and optimized the User Interface for job seekers to browse, filter, and apply for opportunities.
- Implemented complex state management, custom Hooks, and dynamic routing using React Router.
- Integrated RESTful APIs for real-time data fetching, user authentication, and secure form submissions.
